

Bouygues (U.K.) Limited, London Offices SE1

Lift Maintenance

BOUYGUES E&S FM UK LIMITED

Bouygues E&S (Energies & Services) is a world-leading European facilities management and energy performance partner that operates in over 20 countries including France, UK, Switzerland and Canada. They work to ensure the technical systems installed and operating in their client's buildings achieve and sustain the quality, reliability and energy-efficiency needed for today's environmental and safety standards.

Amongst their extensive UK portfolio, Bouygues delivers a variety of FM services to their Clients some of which are:

- Barnet General Hospital
- National Physics Lab
- University of the Arts, London
- Broomfield Hospital
- North West London Hospitals NHS Trust
- Pathways Housing

Liftec Lifts Ltd.

Lift Maintenance

BOUYGUES E&S FM UK LIMITED

- North Middlesex Hospital
- The National Archives
- Addenbrooke's Hospital
- Public Health England

In January 2018, Liftec was awarded the maintenance contract for 198 units across multiple sites owned by the organisations mentioned above. The award followed several meetings with Bouygues' Senior Procurement Manager and a successful competitive tender submission.

Many of the buildings operate in the healthcare, residential and public sectors. Liftec's commitment to consistent levels of lift performance and reliability has been key to maintaining customer confidence. One of the crucial requirements of this contract is for our engineers to ensure that potential lift failures and passenger entrapments are kept to the very minimum and resolved as efficiently as possible.

To address the lifts' needs for safety and reliability, a series of detailed lift status reports were provided to Bouygues from the outset of maintenance works.

This contract has been successfully retendered and re-awarded to Liftec, since 2018.
